Solidarity with the Sindicato Mexicano de Electricistas -SME

Dear colleagues:

On behalf of the General Council of PEO and the working people of Cyprus, we express our solidarity and support to the Mexican Electricians Trade Union-SME.

In the world today, the conditions have been worsened to such an extent that they have made contemporary times especially difficult and harsh for the working people, but also for humanity as a whole.

The imposition of the so-called New World Order and the implementation of the capitalist neo-liberal globalisation of the economy have resulted in the gap between

the rich and poor countries, exploitation, poverty and destitution growing.

Contemporary conditions render the rallying, joint action and solidarity between working people as extremely crucial for the protection of the rights of working people.

Dear Comrades:

We express our class-oriented solidarity to the Mexican working class and we demand for an immediate solution for the benefit of workers and the respect of the validity of the union institution SME.

Frente de Trabajadores de la Energía,
de México
