Reflects, WFTU magazine

On May 2010, the World Federation of Trade Unions, central at Athens, Greece, announce to the labor world, publication of “Reflects”, the WFTU magazine, edited in several languages.

The purpose of this publication: the WFTU magazine

Editorial

We live in the age of technology. The communication amongst the unions and the trade unionists is mostly through the internet and the e-mail. These tools are really useful and we ought to make use of them in order for our positions and our activities to quickly reach everywhere. In addition, we believe that the magazines, like the one you are holding in your hands, have not lost their value. Our age is characterized by the controversy between the capital and the labour. The capitalists have in their possession the mass media, the TV-stations, the newspapers, the websites and the blogs. They organise constant attacks to the workers' minds. They, firstly target the consciousness and secondly the working class' and the new generation's pockets. In such conditions, we need publications such as

newspaper, magazines, websites, TV-stations etc. which will promote the positions of the class-oriented trade union movement. This magazine will be published 2-3 times a year. Our aim is to propagate, in a simple way, the positions of WFTU, the positions of its members and friends; to attract more friends. Our aim is to trade experience and knowledge between the continents, the branches and the regions; in order to assist the class-oriented struggles. Our aim is to cultivate internationalism and labour solidarity amongst the workers, the poor farmers, the self-employed. Our aim is for the 16th World Trade Union Congress to be a great historic event in the interest of the workers. So we are expecting your articles and suggestions! **Let us have a good start!**

The FTE in Mexico is congratulated with publication of new WFTU Magazine. We consider that labor press is an important fight weapon that it is fully effective. We invite to Mexican workers to read the WFTU Magazine that is available in our printed, digital editions and internet:
