To: *V. Fiodarau*,

To: all delegates of the 2nd Congress.

The Energy Workers's Front (FTE) in Mexico, affiliated organization to the Trade Union International of Mining, Metallurgy and Metal (TUI-MMM), sends a solidarity message to the 2nd Congress of the Belarusian Trade Union of Workers of Industry (BTUWI), will hold on Minsk, Belarus.

We congratulate ourselves for the congress and we want that reports, analysis, proposals and other collective decisions are good for advance of the workers' movement in Belarus.

Workers of the world face serious aggressions and challenges in a context of

persistent economical and social crisis of capitalism. In all countries, we need to unite our forces with base in a class principles and a program express our common aspirations, goals and actions.

In Mexico, we are fighting for defense of the natural resources, against privatizations of energy, water and minerals, and for social rights.

We want a 2nd successful congress reaffirming our reciprocal international solidarity's relationships.

Up until victory always!
