New Israeli barbarism in Palestine

On May 31, 2010, the Israeli marine took for assault the Flotilla for Freedom which navigated on Mediterranean Sea international waters and it went with humanitarian help to the fringe of Gaza. The aggression caused the death of 19 people and several wounded.

An international contingent sought to give 10 thousand tons of foods, medications and other articles of first necessity, in solidarity with the inhabitants of the subjected Palestinian territory to a marine, terrestrial and air blockade from 2007. According to a testimony of crew's member, transmitted by Greek television: "They shoot people. They hit people. They came at about the midnight. Around three o'clock they surrounded us and helicopters and ships came". Stop to aggression and Israeli government's impunity!

The World Federation of Trade Unions condemns the new Israeli barbarism that has resulted in the murdering of people who just wanted to express their solidarity with the people of Gaza.

We are firmly on the side of the Palestinian people and we demand the

withdrawal of all occupation troops from Arab territories. We demand the Gaza blockade to be immediately lifted and all passes to be opened straight away without restrictions.

We demand the recognition of the Palestinian state with East Jerusalem as its capital.

We demand from the UN and international organizations to condemn the new incursion of the Israeli army and the U.S. policy, that supports this barbarism.

We call upon all WFTU affiliates and friends to express their solidarity in every possible way.
