Successful General Strike

On Europe the general strike against neoliberalism took place in several places. In the Basque Country mobilization was successful headed by the LAB Trade Union.

SUCCESS OF THE GENERAL STRIKE OF JUNE 29 IN THE BASQUE COUNTRY

Dear comrades:

From Basque trade union LAB we write you to inform you that yesterday's, on June 29th, General Strike in south Basque country was a success:

- More than 65.000 workers and hard-working participants in the manifestations.
- More than 80% of companies of the industrial sector they have stopped. Also, the almost entirety of the transport has stopped.

- In the branch of the commerce and in the public services the incidence was majority also.
- We denounce the wild attitude of the Police that arrested, stopped and identified several strikers.
- Once again it has been credited that Basque working class doesn't accept the antisocial measures of the Spanish Government.
